OSTEOLOGY OF THE GALLINAE During the past 20 years or more I have contributed a number of illustrated papers to the Osteology of various groups of gallinaceous birds, both existing and fossil. Some of these have been rather extensive, as those on the Tetraonidae of North America; on the turkeys; and on G a l l u s b a n k i v a of India, and others, The more important of these will be cited or quoted from to a greater or less extent in the present treatise. So large is this group of birds, however, that it will not be practicable for me to deal with the osteology of all of its several families in this place, much as I should like to do so. To give some idea of our present knowledge of the number of species referred by some...
